## HOUSE HURRIES TO FINISH WORK ON TAX MEASURE

Will Act On Proposed  
Amendment To State  
Constitution.

Senate Will Conclude Hearing  
On Bill For Reorganization.

Columbus, March 28.—With the re-convening of the legislature today, house members were preparing to finish up their work by Wednesday evening, and the recess until April 11, when they will come back to pass on senate bills.

Submission of a constitutional amendment on taxation was the most important matter before the house this week. The senate is to conclude its hearings on the governor's reorganization bill and is expected to recommend the bill for passage in the senate late in the week.

The Harding state constabulary bill is also expected to come up for a vote in the house again tomorrow. Organized labor will oppose passage of the measure.

Important measures before the upper body include the reorganization bill, the minimum wage bill, appropriation bills, Americanization bill and the occupational disease bill.

The Taylor bill, seeking to regulate Sunday afternoon movies is scheduled for resumed discussion in the house Wednesday afternoon. Opponents of this measure have been at work this week when they forced the postponement over the week end of final consideration of the bill. This action was for the purpose of ascertaining the views of churches on the question.

## CONVICTED MAN IS IDENTIFIED

Prisoner at Mansfield Reformatory Is Held For Pay Roll Robbery and Murder In Cleveland.

Cleveland, March 28.—Agreement was reached today between County Prosecutor Stanton and Inspector of Detectives Sterling to postpone for one week, the arrangement in police court of Frank Motto to allow grand jury to act.

Motto, who was brought here from the Mansfield reformatory, was identified by Sam Purper, under indictment in connection with the murders of W. C. Sly and G. K. Fanner, as one of the gang implicated in the crime during a pay roll robbery December 31.

At the first meeting of the April grand jury, Stanton said he would ask that Motto be indicted.

## COURT HOUSE CLOCK NOW ON EASTERN TIME

Pursuant to the order of the county commissioners, Clock Tender W. H. Weekley turned the court house clock forward one hour yesterday morning at 9:30 to conform with the city ordinance which provides for eastern time for the city during the summer months. There was little confusion in the church where many people did not know whether church services would be held on the old or the new time but on the whole there was little trouble.

## WILL ASK ALLIES TO ESTABLISH FRONTIER

Paris, March 28.—Representatives of the allied governments will meet in Italy soon to exchange views relative to the establishment of the frontier between Poland and Germany in upper Silesia, it is said in dispatches to Paris newspapers from Rome. It is declared that the question will demand an exchange of views between the various governments.

## PICTURE THEATER IS ROBBED OF \$940

Cleveland, March 28.—Three armed men looted two employees of the Standard theater, a moving picture house located in the heart of the downtown business section, in the reel room early today and then blew open the doors of the safe in the manager's office, escaping with \$940. The loot represented Sunday's receipts.

## GEORGE GUTRIDGE DIES FROM APOLLECTIC STROKE

George Gutridge aged 73 years, a retired farmer died this morning at 7 o'clock at his home 394 Union street. His death was the result of a stroke of apoplexy suffered on March 20.

The deceased had made Newark his home for the past three years, having come to this city from near Brownsville where he had spent his entire life. He was a member of the Poplar Forks Baptist church of Gratiot.

He leaves a widow, four sons and five daughters: Edward and Samuel of near Brownsville, Ray of Gratiot, Warren of Newark, Mrs. Henry Orr, Mrs. Frank Claggett, Mrs. Henry Hoskinson of Gratiot, Miss John Graham and Mrs. Floyd Hipp of Newark.

There will be short services in the home Wednesday morning and at 11 o'clock the cortage will leave for services at 12 o'clock in the Poplar Forks church at Gratiot. Rev. Mr. Rutherford and Rev. Mr. Schumaker will officiate. The services and burial will be made in the church cemetery.

## SEISMOGRAPH TELLS OF SEVERE QUAKE

Washington, March 28.—Earthquake tremors characterized as "very severe" were recorded on seismographs at Georgetown University. The indicated distance from Washington was 1900 miles. The disturbance began at 2:55 a.m. and lasted until after 5 a.m. with maximum activity at 3:01 a.m.

## FIND 11 BODIES ON MURDER FARM

Negro Who Admits Slaying Involves Employer Who Is Said to Have Held Men As Slaves.

Monticello, Georgia, March 28.—State authorities were planning today to push their investigation of alleged peonage practices in Jasper and Newton counties following the recovery of two more bodies of negroes from the Alcovy river here, making a total of eleven bodies found since the authorities began an investigation of peonage and murder charges against John Williams, a Jasper county farmer. The last two bodies found late yesterday were chained together and weighted down with rocks and iron precisely as were the first three previously recovered from the river.

Appointment of Attorney General Denney to take charge of peonage investigations in the two counties was being considered today by Governor Dorsey at the request of Solicitor Campbell of Newton county. Following a coroner's verdict yesterday at an inquest over eight of the bodies, declaring the slain negroes met death at the hands of Clyde Manning, a negro employee of Williams and naming Williams as an accessory, Judge Park of the Oconee circuit court was awaiting orders from the governor today to call a special term of the Jasper county superior court and bring the two men before a grand jury.

Manning, who led the authorities to where the bodies were recovered declared in a confession that the eleven negroes, five of whose bodies were found buried on the Williams plantation Saturday and three previously in the Alcovy river were slain, five at his own hand with an ax, in order to prevent them from testifying in peonage charges against Williams.

## GREEKS TAKE RAIL JUNCTION

Forces Operating Against Turk Nationals Capture Many Prisoners and Quantities of War Materials.

Athens, March 28.—Afion-Karabis, an important railway junction south of Eski-Shehr, has been taken by Greek forces from the Turkish Nationalists, says a Smyrna dispatch to the newspaper Nea Ellas. Many prisoners and large quantities of war material have been captured the dispatches declare and the Turks are fleeing toward Klityah, about 50 miles northward.

An official statement giving details of Saturday's fighting says that the town east of Smyrna occupied a line running through the villages of Chassan and Belmacha and pursued the Turks to within approximately four miles of Afion-Karabis, where the attack halted for the night. It is said the Greek losses have been insignificant.

The Greeks east of Brusa have advanced as far as the line drawn through the villages of Bazarlik, Klutik, Guelzi, Cretes, north of Sugut. These towns are northwest of Eskishehr, and the statement seems to indicate that the Turks are entrenched themselves before this important city.

## NEWARK SCHOOLS ARE CLOSED FOR VACATION

Spring vacation for the Newark school children began today following the action of the Board of Education in granting the usual vacation of one week. Superintendent of Schools O. J. Barnes told pupils that on the resumption of school next Monday the schools would observe the new eastern time which became effective Easter morning.

Spring vacation for Denison University does not begin until next Friday when the school will be dismissed until a week from the following Monday.

## NEW BUS LINE IN SERVICE TO GRANVILLE

The new Ace truck, equipped with a duplicate body of those used by the Fifth Avenue Coach company, started its regular schedule between Newark and Granville this noon. The new bus line is being operated by Messrs. R. E. Thomas and E. F. Reece, the bus op-

## YANKEE TROOPS CALLED TO AID GERMAN POLICE

Communists In American Bridgehead Engage In Uprising.

Germans Use Artillery Against Radicals In Halle District.

Coblenz, March 28.—A Communist uprising occurred this morning in the American bridgehead area at Montabaur, six miles north east of Ehrenbreitstein. A riot call was answered by the provost marshal, and American military police were dispatched to Montabaur to restore order.

## COMMUNISTS SHELLED BY GERMAN CANNON

Halle, Germany, March 28.—Federal artillery was taking a prominent part today in dealing with the insurgent communists in this disturbed section of Prussian Saxony.

The artillery shelled the Communists who were grouped on the hills to the west of Eiselsberg, dispersing them. After a brief engagement the town of Sangerhausen, southwest of Eiselsberg was occupied by Federal forces which now control that place.

Count Ponius, colonel of police in the Mansfield district has taken charge of the operations around Eiselsberg.

## FARMERS HOPE TO RATIFY PLAN FOR MARKETING CROPS

Meeting Is Scheduled For April 6 and 7 to Adopt Plans to Sell Grain and Live Stock.

Chicago, March 27.—Farmers' organizations of the United States today are officially considering the most extensive cooperative marketing plans in the history of the country.

Two well developed projects for handling grain already have been worked out and are now being presented to farmers. If adopted, they will go into effect this month. Efforts are being made to unite the two farm groups concerned on a single system.

The final ratification meeting for the broader scope of the plans, which includes the handling of all grain, is set for April 6, here. The other organization, which concerns itself only, is already signing up members.

The First Presbyterian church received 12 new members yesterday. The Plymouth Congregational church received a large class and baptized many of the new members.

The new members were received at Second Presbyterian church Good Friday night and two baptisms the child of Mr. and Mrs. H. K. Smith of Linden avenue and the son of Mr. and Mrs. Max Norpell were baptized at the Sunday morning service. Bartlett's cantata "From Death to Life" was sung by the choir. At the First M. E. church the morning service was largely attended and new members were received. In the evening the union service for the St. Luke's commandery Knights Templar was held.

At the Plymouth Congregational church announcement was made of a gift of \$2,200 made to the church.

The offering was made through the sale of some Plymouth Congregational church property at Alexander by the Congregational church trustees there. As there is no Congregational church being maintained now in Alexander, the money

was made to the Plymouth Congregational church.

At the morning church service the Sunday school room and the auditorium were thrown into one and every available bit of space was occupied by the large congregation. Sixty-three persons

were received publicly into the full communion of the church and there were twenty-five baptisms.

At the evening service the large chorus choir under the leadership of Mrs. Fitch gave a service of Easter song.

At the First Baptist church a class of 20 new members was received followed by a reception to them and in the evening the baptisms were administered.

The Catholic churches of the city were transformed by lavishness of the floral decorations, the churches having been veiled in purple, symbolic of sorrow, for the past two weeks. Two masses were celebrated at both St. Francis de Sales and the Blessed Sacrament churches and special musical programs were given.

Easter services at St. Paul's Lutheran church included the early Matin service at 7:30 and 10:30. In the afternoon baptism was administered.

Special music featured the services at the Trinity Episcopal church.

## NEW A.M.E. CHURCH IS DEDICATED SUNDAY

Easter Sunday was a gala day in colored circles of the city for it marked the formal dedication of the new Trinity A. M. E. church which the congregation had erected on the site of the Old building in East Church street.

Lead by a good band Sunday morning the entire membership of the congregation fell into line, and accompanied the Colored Knights Templar to the church where the morning service at 10:30 o'clock was given over to that organization.

The sermon at the morning service was preached by the pastor, Rev. G. L. Hicks, who is also grand chaplain of the Masons for the Ohio jurisdiction.

Impressive services marked the dedication of the new edifice in the afternoon. At 2:30 o'clock, the members again assembled and following the dedication the depository sermon was delivered at the depository.

The sermon at the morning service was preached by the pastor, Rev. G. L. Hicks, who is also grand chaplain of the Masons for the Ohio jurisdiction.

In the evening the sermon was delivered at 7:30 o'clock by Major W. T. Anderson, D. D., who is a retired chaplain with the U. S. army.

Rev. Hicks announced gifts of \$300 yesterday, \$100 from O. C. Jones, \$100 from Roy Emerson, who has previously contributed \$25 to the church, and \$10 from a lady who wished her name kept secret. Total receipts from gifts and collections were \$706.25. Rev. Hicks read a telegram from O. C. Jones who is spending the winter in San Diego, California, announcing the gift.

Cooperative purchasing of supplies by farmers' organizations, prominent among them the elevators, has made rapid progress in several states, farmers owning coal mines and buying output of entire factories.

## BOY'S SKULL FRACTURED; IS STRUCK BY AUTO

Wilbur Heiter, the 12-year-old son of Mrs. L. E. Reiter, 222 East Main street, was seriously injured Sunday noon when he was struck by a motor vehicle crossing Buena Vista street at East Main. The child was said to have been riding a velocipede and the machine was driven by a man named Lyberger who resides in West Newark.

Fitzsimmons ambulance took the boy to the City Hospital where he was attended by Dr. Harry Postle. It was found that he had a fractured skull. Dr. Postle stated this morning that while he was seriously hurt his condition was better today. The family removed recently from South Sixteenth street to East Main.

Washington, March 28.—Earthquake tremors characterized as "very severe" were recorded on seismographs at Georgetown University. The indicated distance from Washington was 1900 miles. The disturbance began at 2:55 a.m. and lasted until after 5 a.m. with maximum activity at 3:01 a.m.

**DIES TRAGIC DEATH**

**Diary Tells of Fight for Life in the Frozen North.**

**Body of Duluth Man Found by Trappers 200 Miles From Nearest Trading Post.**

The Pas, Manitoba.—Out of frozen expanses of barren lands, 200 miles from the nearest trading post, news has just reached the provincial police here of the tragic death of A. O. Rinehart of Duluth, Minn., a trapper.

His body was found in a shack last October by two other trappers. Beside it was a diary which recorded how for months he had fought a solitary and courageous battle against disease, hunger and cold. The last entry was dated April 9, 1920.

Rinehart left The Pas in August, 1919, on the long journey into barren lands for a trap line. During the next three months his life, apparently, was without incident, for the first entry in the diary was dated November, 1919.

Four months later, March, 1920, the trapper's notes revealed his almost helpless plight—helplessly confined to his bed. Realizing his predicament, he had stored all his supplies within reach.

The final chapter told of his inability to get out of bed to keep the fires going, the exhaustion of his water supply, and his slow death.

S. P. McCleaghan, one of the trappers who found Rinehart's body, said the diary showed the doomed man had scorned suicide, and to make sure he would keep his resolve not to end his life he had broken the mechanism of his revolver and rifles. His notes expressed hopes that someone would come to his rescue.

A letter the dead trapper had written to a relative, Waldo Rinehart of Shawano, Wis., also was found in the cabin.

**WORM MAKES SOIL TILLABLE**

**Earth Would Be Barren Without Them, Says British Professor.**

London.—The worm, persecuted, abused and misunderstood, is worthy of consideration, according to Professor J. Arthur Thomson of Aberdeen University, who has just completed a series of lectures on the evolution of life. Professor Thomson says that the worm is one of our earliest ancestors and was the first creature to emerge from the sea with the coming of dry land.

Realizing the great task that lay before them, the worms at once began the custom of moving with one end of the body forward. Plowing beneath the surface of the earth, they turn over the soil for a depth of three inches once every 15 years. Were it not for this natural serration of the land, trees, plants and grains would not grow, and the earth would be a barren, sandy place unfit to sustain any form of life.

**MODEST HERO GETS CHECK**

**Father of Girl Saved From Train Advertises to Find Her Rescuer.**

Lynn, Mass.—Out of work for eight months, Clarence Robert Hughes, a World war veteran with a wife and two children, received a check for \$200 from Edward Watson, a retired leather manufacturer of Dorchester, whose daughter Hughes saved from being crushed under a train.

"I had almost forgotten the incident until I received the check," said the rescuer, who was so modest that his identity was only learned through advertising in the newspapers.

Hughes was talking to a friend on the platform of the Lynn railroad station, when Mildred Watson, a fifteen-year-old schoolgirl, started across the tracks. As a train approached she fell between the rails. With the locomotive only a few feet from the girl, Hughes pulled her to safety.

**Pennsylvania Surgeon Removes Own Appendix**

Kane, Pa.—That he might exemplify in his own case that dangerous anesthetics were not necessary in an operation for the removal of the appendix, Dr. Evan O'Neil Kane, sixty, one of the most noted surgeons of this state, calmly sat upon an operating table and cut out his own appendix, while doctors and nurses stood by and watched. He applied only a local anesthetic.

**British Smoking Less.**

London.—There has been a marked reduction in the retail sale of champagne and cigars in England. Cigar merchants say that recent clearances from bond and importations from Cuba have practically been suspended. The public, it is stated, refuse to buy at the high prices necessitated by the heavy duty and the inflated cost of tobacco.

**Fish So Cold Fish Bowl Froze Over.**  
New York.—A fine of \$150 was imposed on Marino di Fede, landlord of an 18-family tenement in New York city, for failure to keep the building reasonably warm for his tenants. Police found gold fish swimming under three-quarters of an inch of ice.

**Advocate Want Ads Bring Results.**

**HAD TOUCH OF COMIC OPERA**

**Chinese Armies Stopped Fighting to Let United States Vessel Pass Down the River.**

Ensign William H. Galbraith, navigating officer of the United States destroyer Hart, attached to the United States Asiatic squadron in Chinese waters, in a letter tells of the intensified war placed on the hands of the vessels of the squadron in the Far East by the operations of the Chinese civil war now in progress between the Pekingese and the Cantonese sections of the nation. When armies representing these hostile sections approach cities in which American citizens are in business there is much excitement on the part of the Americans and they call urgently for the protection of the fleet, says the Columbus Dispatch.

Recently the Hart received a radiogram call from an officer of a United States merchant vessel, stating that his vessel 50 miles up one of the Chinese rivers was being detained. The captain was anxious to put to sea, and would the Hart see that it was permitted to depart? The Hart got on the job at once and found when the scope was reached that there was no governmental authority holding the United States ship up, but the Cantonese army was drawn up on one side of the river and the Pekingese on the other and a battle was in progress, with the river, through which the United States ship must pass, between them. Naturally the captain did not fancy risking the shots that were passing across the channel. The respective commanders kindly suspended the fighting until the merchant vessel had passed.

**SUCCESS SLOW IN COMING**

**Discoverer of Vulcanized Rubber Was at One Time Compelled to Beg Money for Bread.**

Charles Goodyear, who became a millionaire and was the inventor of vulcanized rubber as well as many other forms of the tree sap products, at one time was forced to beg for \$5 to keep him from starving. In 1834 he discovered that rubber could be vulcanized. It was an accident. He attempted to remove some bronze dust from a bit of rubber cloth, and after trying several chemicals tried aqua fortis, a chemical largely composed of sulphuric acid. It failed also, and he threw the cloth away. A few days later he picked it up by chance, and noted the spot rubbed by the aqua fortis had hardened and would stand a degree of heat that would have melted it in its former state.

He applied his discovery, and soon was wearing rubber shoes, coats, hats and other garments, and had a small fortune by the right of his discovery. But a year passed, and his goods were discredited and returned, rotting and broken. He was ruined. He started again to discover a method that would vulcanize the rubber, and for ten years he kept at it, his life a long misery of hunger and cold and crushing poverty. His success came suddenly and soon he was rich beyond his wildest dreams.

**Wonderful Poison Gases.**

Canned, solidified, poison gas, which is claimed to be absolutely foolproof and mobile, has been perfected for use by the American soldier, according to Popular Mechanics Magazine. That

two studies—defensive and offensive gas research—go hand in hand already has been demonstrated, for, in addition to the development of new forms of gas, army experts at the Edgewood (Md.) arsenal, have had to improve the gas masks to make them effective against some of the new gases brought into existence there. In technical military progress, every new weapon means a call upon the armorer for a new defense. As a result, this country today has not only gases which surpass anything used during the World war, but a mask which, in recent tests was worn 24 hours a day for a week, except at mealtime, without any discomfort whatever. Breathing was normal, speaking was simple, and it kept out all the gases thus far known.

**Women Smokers "Under Cover."**

The mystery of where women cigarette smokers obtain their supply is solved, in part at least, by an up-town druggist, who was asked why nearly all such stores keep their tobacco stands in inconspicuous places, says the New York Sun. He said the reason for doing so is because the druggists cater to women smokers, and this class is rather timid about purchasing in the open. The women, it seems prefer to glide back to some out-of-the-way corner, where nobody will see them. Of course, there are exceptions.

**Not Much of a Party.**

Seven-year-old Jean and her mother were invited to an informal party. They went. There the guests talked and talked, and finally the hostess passed for refreshments some wonderful fruit and candy. Little Jean ate with the others but looked expectantly for something else. But nothing came.

On the way home she voiced her disappointment to mother. "I don't see why they call a thing like that a party," she complained. "I don't think much of a party you don't have a drop to drink."—Indianapolis News.

**It Was Suggestion.**

"So she refused you?"  
"That's the impression I received."  
"Didn't she actually say no?"  
"No, she didn't. All she said was 'Ha-ha-ha!'"—San Francisco Chronicle.

The President of the French Republic is provided with an official aeroplane.

**LIGHT WELLS BROUGHT IN**

**drill its first well. It is the opinion of all men in Lewistown that there will be more activity in Montana this year and next than in any state in the union. Oil operators are looking towards Montana to secure large production in the future.**

**The Leman G. Neely company has started drilling on the No. 2 in Hope well township.**

**The Leonard Oil and Gas company's well on the J. A. Noland farm, south of Fall River, was good for about 150 barrels.**

**drilling in the Thomas Wickham well No. 1 at Toboso and it looks like a small well.**

**The A. H. Heisey company has drilled in on the Thomas Wickham No. 1 on the Virgil Orr farm, and got a light showing of oil.**

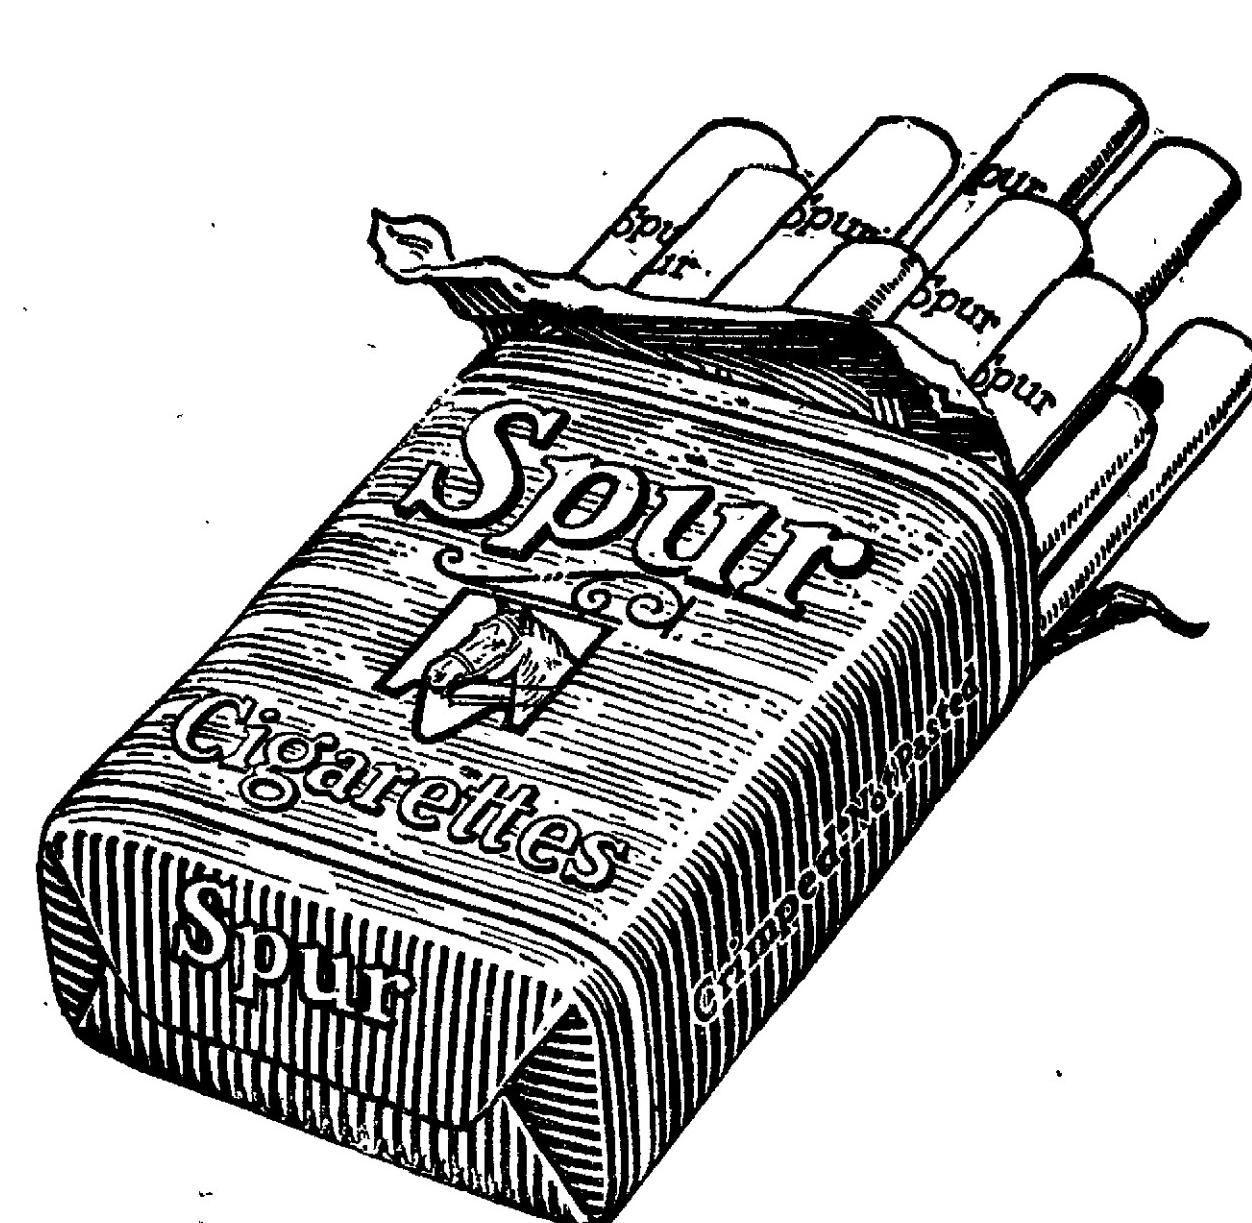

**Drilling has been started by the Detex Oil and Gas company on the No. 1 John Iden location in Hopewell township.**

**Before 1886, when gasoline was discovered to have power possibilities, gas engines were operated by gunpowder and turpentine.**

**NOT WATER SHAMS.**

**BOTTLE PLANT ENGINEER**

**C. H. Stock, an engineer employed at the American Bottle Company, was enabled about the back Sunday morning when while engaged in his work water broke from a pipe over head and struck him. He was removed to the Newark Sanitarium in Elm Brook ambulance. It was reported at the Sanitarium this morning that he had had a good night. Mr. Stock lives in Stanbury Street.**

*the  
Only  
One*

**that's  
4 leaf blend**

Kentucky Burley heart-leaf gives that good old tobacco taste; Macedonian leaf gives that spicy aromatic aroma. Golden Virginia leaf—the tobacco man's tobacco—gives "life" and sparkle. And from the old Potomac section comes the cool-burning Maryland leaf. It's some blend.

**Crimped**

A great invention in cigarette making—a cigarette made without paste. A patented machine crimps the paper-edges—and as a result, Spur burn slower and more evenly.

## AUDITORIUM

Three Days Starting Today.

## BEBE DANIELS

## DUCKS AND DRAKES

BY ELMER HARRIS

DIRECTED BY MAJOR MAURICE CAMPBELL

## AMUSEMENTS

## TONIGHT'S ATTRACTIONS

Bebbe Daniels in Ducks and Drakes

Shirley Mason in "The Flame of Youth"

Grand-The Palace of Darkened Windows

Gem-Buck Jones in Firebrand Xtra

Splendid Cast in Support of Williams

he, too, knows about her wife flirtations. Unlike the shapen, however, he is far from distracted about it. Being an efficient young business man, he merely applies business efficiency to the problem, and cures her of her bad habit by the simple expedient of enlisting the aid of some of his men friends.

The final fade-out reveals a contrite and very demure little bride, who vows that the one man will be enough to make her happy for the rest of her days.

Miss Daniels has never had a role that fitted her type and talents better than this role of the mischievous Teddy. Her dashing beauty, whether enhanced by the many stunning costumes which she wears in some of the scenes, or the bath wear in which she wears in one amusing scene with her harassed chaperon is of a kind peculiarly suited to the saucy role. We doubt if any blonde on earth, no matter how reckless, could be quite so impish as the dusky Miss Daniels.

Mame Kelso has the role of the aunt. Jack Holt is the leading man, and fellow conspirators in his plot to frighten the heroine out of her bad habit are William E. Lawrence, Edward Martin, and Wade Boteler. The latter wears a set of black whiskers in his early scenes that so completely disguise him that any matinee girls who lost their hearts to him when they saw him as the tough guy in Miss Daniels' preceding picture, "She Couldn't Help It," won't recognize him at all in the first few reels of "Ducks and Drakes."

Major Maurice Campbell directed the offering and a very snappy comedy resulted from his interpretation of this latest brain child of the versatile and industrious Elmer Harris, whose many comedy successes have been seen in both stage and screen.

"Ducks and Drakes" will remain at the Auditorium theater here for 3 days.

THE PALACE OF DARKENED

"WINDOWS" AT GRAND

This is the big social attraction at the Grand theater today, tomorrow and

with all the pleasant-sounding masking voice that answer her.

The young woman has a fiance, and Wednesday deals with the life and cus-

toms of East India. It has been produced on a lavish and sumptuous scale and for the first time in motion pictures chronicles faithfully the true workings of a harem.

A young American girl, anxious to gain an insight into the mysterious abode of a harem, consents to enter the realm of the latter and in a short time finds herself unable to cope with the situation staring hot in the face.

Chore Anderson and Jay Belasco play the leading roles, and the supporting cast includes Arthur Edmund Carew, Charlotte Mayo, Gerald Prang, Alastair, Farnham, Virginia Caldwell, Nicholas DuNay and Virginia True Boardman. Katherine Reed adapted the story for the screen from the book by Mary Hastings Bradley and Henry Kolker directed the production.

SHIRLEY MASON IN

ANOTHER DAINTY PLAY

A new Shirley Mason picture is a theatrical event that may be depended upon to cause a stir. This dainty player is to appear at the Alhambra theater on Monday, playing the star role in "Flame of Youth," a William Fox production.

Shirley Mason pictures are distinctly of the sort that may be enjoyed by old

and young—always clean and bright and never with such uplifting human emotion.

In "Flame of Youth" she has a role very different from all those she has played before, yet having this dainty freshness in common. Shirley Mason is the incarnation of youth and high spirits, and she may be expected to do wonders with such a part as that of the little Belgian foundling who is the heroine of "Flame of Youth." The scenes are laid in the Belgian country-

side and in the artists' quarter of Paris. The theme is love and romance and art. The combination aroused interest and the name of Howard M. Mitchell as director adds assurance that the production is well done.

dent Clara M. Bradley will be at the  
meeting.**Minnesota Urges Recognition.**The local secretary of the Newark  
council of the association seeking recogni-  
tion of the Irish Republic, received  
word today that the Minnesota senate  
had passed a resolution asking President  
Harding to recognize the Irish re-  
public.**Robinson Circus Coming.**J. B. Hirshberger stated today that he  
has closed a lease for his circus lot at  
the end of West Locust street with  
John Robinson circus representative.  
The lease was signed this morning, the  
show to appear here Tuesday May 3.**VAUDEVILLE ACT AS AN ADDED FEATURE**Today the Auditorium arranged to  
offer, as an added feature to the pic-  
ture program, the "Two Loylets," who  
do a bit of everything in the vaudeville  
line. This act, owing to a change in  
booking conditions, is made possible for  
Newark. The act has appeared over  
the larger circuits and will be a pleasant  
feature.**Newspaper Want Ads Tonight.****KEEP BLOOD IN  
FIGHTING TRIM**Thin-Blooded People Should Strengthen  
the Blood With a Good Tonic to  
Keep Off Contagious Disease.**TAKE GODE'S PEPTO-MANGAN**If You Tire Easily and Feel Run Down,  
Your Blood Needs More Red  
Corpuscles. Watch Your  
Blood Condition  
Now.It is thin-blooded, anemic people that  
disease strikes first. If any of the dis-  
ease germs that so often become epi-  
demic catch you in a run-down condi-  
tion, they are able to take hold—and  
the first thing you know you are ill.  
But if you are in good condition, your  
blood vigorous, rich and red, your sys-  
tem is able to throw off the effects of  
germs that are so prevalent when an  
epidemic breaks out.Make up your mind to this fact—  
you are either well or you are not well.  
And the common-sense thing to do is  
to be on the safe side. If you are in  
doubt, take that wonderful blood tonic,  
Gude's Pepto-Mangan. It makes blood  
rich and red. It increases the number of red  
corpuscles and your system is  
enabled to fight the ravages of epi-  
demics. Watch your children. If they  
are pale and weak and thin-blooded, give  
them Gude's Pepto-Mangan. Gude's  
Pepto-Mangan is put up in both liquid  
and tablet form and is sold by druggists  
everywhere. The liquid and tablets  
have exactly the same medicinal value.  
Buy whichever you prefer, and be sure  
it is genuine "Gude's Pepto-Mangan."  
The name "Gude's" is on the package.  
Advt.**COSTS \$243 LAST YEAR  
TO FEED A FARM TEAM.**What does it cost to feed a team of  
work horses a year?At the Paulding County experiment  
farm the cost for the past year was  
\$243.21. The horses were four-year-  
olds, each weighing about 1400  
pounds.They also consumed a ton and a  
half of corn stover, estimated at \$6.17;  
a ton of hay was figured at  
\$9.65. Sixty-five cents worth of straw  
and oilseed was also fed.The feed was weighed weekly for  
this team and charged against the  
horses at the market price at the  
beginning of each month.During the first six months of the  
year feeds were unusually high, but dur-  
ing the last six months, much lower.Walrus-hunters paint their boats  
white to resemble cakes of ice.A fine spread—Licking Creamery  
Butter 56c pound.**"MARY JANE" IS  
WED TO NEPHEW  
OF GEN. PERSHING**The Ohio State Music Teachers' Asso-  
ciation will hold its annual convention  
in Dayton this year, April 27, 28, 29.The following prizes are to be given:  
The Ella May Smith prize of \$100 for  
chamber music. Any composition in one  
or more movements for string quartet  
or for ten other string instruments  
combined will be considered. Manu-  
scripts must be anonymous, the com-  
poser signing same with mark of identi-  
fication, sending with a sealed envelope  
containing the name, address and mark  
of identification, said mark to also be  
on the outside of envelope.John C. Freund, editor of "Musical  
America," will give a \$50 prize to the  
vocal student of an Ohio teacher who  
sings with the best diction.The Civic Music League of Dayton  
offers \$100 to the best pianist trained by  
an Ohio teacher, the requirements being  
that they play one of the larger Beeth-  
oven Sonatas or one by Schumann  
or Chopin, one of Liszt's large composi-  
tions and one other number.Edgar Stillman Kelly offers two of his  
printed scores, valued at \$15 each, for  
the best piano paper on orchestration.Mrs. H. E. Talbot, president of the  
Dayton Symphony Association, offers  
\$50 for the best trained violinist whose  
instruction has been obtained from Ohio  
teachers, requirement being one move-  
ment from any sonata of an early com-  
poser, such as Vitali, Correlli, Mozart,  
and a concerto by Vieuxtemps, Wien-  
iawski or any standard composer, and  
one miscellaneous.Manuscripts and papers on orchestra-  
tion must be in the hands of the secre-  
tary on or before Wednesday, April 6.All contestants for the piano, violin  
or vocal prizes must enter their names  
and the name of their teacher, on or  
before April 20.Further information will be supplied  
by Adelaide O'Brien, managing secre-  
tary, 205 N. Main Street, Dayton.Frank Edwin Pershing and his  
bride, nee "Mary Jane" Outcault.Hundreds of thousands of chil-  
dren and grown-ups, who laughed  
at the antics of "Mary Jane" and  
"Buster Brown" in Richard Felton  
Outcault's comic, are interested in  
the word that "Mary Jane," now  
grown-up, is now Mrs. Frank Ed-  
win Pershing. She was married a  
few days ago. Her husband is a  
nephew of General Pershing.Famous Black Beauty  
coal, just a few tons left at  
\$6.15. Phone 4474. 3-26-31**MUSIC HATH CHARMS TO AID THE GEOGRAPHY SCHOLAR**

Miss Dorothy Timmerman and one of her geography classes being aided by the phonograph, at extreme left of picture.

A short while ago we heard of  
the phonograph as first aid to  
stenography pupils in learning  
to operate the typewriter. Now  
is has been introduced in other  
branches of school work. In**FORMALIN TREATMENT  
RIDS OATS OF SMUT**A practical system of treating seed  
to prevent smut has been worked out  
at the Ohio Experiment Station, Wooster.The farm application of the plan con-  
sists in sprinkling piles of oats on a  
tight floor or canvas with a solution  
of 10 percent formalin—one pint or one  
pound of formaldehyde being dissolved  
in 40 gallons of water.The grain is sprinkled and shoveled  
until every kernel is moistened, one  
bushel of grain requiring about three-  
fourths to one gallon of the solution.Grain so treated is covered for two or  
three hours or over night and then  
spread to dry.To completely rid seed oats of smut  
it is necessary to disinfect bags, grain  
drills or any containers treated oats  
might touch before it is sown.Complete directions for treating seed  
and seed hairy for smut are mailed  
to any Ohio farmer upon request to  
the Ohio Experiment Station, Wooster.**BUCKEYE LAKE  
SEWER SYSTEM  
TO COST \$208,000**Work Will Be Started in  
July If Legislature Ap-  
propriates \$80,000, State's  
Share of Improvement.Plans have been completed for the  
proposed sewage disposal system which  
the state department of public works  
hopes to install this summer at Buck-  
eye Lake. Carrying out the project de-  
pends upon whether the legislature will  
appropriate \$80,000 to pay the state's  
share of the cost of the improvement.The sewage disposal system will give  
the summer resort all the sanitary con-  
veniences that any city enjoys. It con-  
sists of the construction of a sewage  
pumping station, filter beds, sewage  
settling tank and the laying of eight  
miles of pipe. It will take care not  
only of the 625 cottages, hotels and  
picnic row at the lake, but all future  
growth along west and south banks of  
the lake.The improvement will cost \$208,884  
of which all but the state's share will  
be paid through taxes levied against  
property owners. Bonds, extending over  
a period of 10 years or more, will be  
issued by Licking county to raise the  
property owners' share. Work will be  
started in July if the appropriation from  
the legislature is forthcoming. It will  
take about six months to complete the  
improvement.Since using the "J. B. L. Cascade," I  
hardly know what it is to feel badly for  
even an hour. I am a firm believer in  
your treatment.The "J. B. L. Cascade" cleanses the  
lower intestine its entire length and  
keeps it always free of poisonous waste.Thousands testify that Constipation and

**IMPORTANT TO EVERY MOTHER**

**Do you know the best energy food for children?**

**GROWING** children need a great deal more energy food than adults, for they use up so much more energy. Every mother and father knows this.

The food element that furnishes the greatest amount of energy is Dextrose. Most of the food you eat—such as bread, starchy vegetables, and all forms of sugar—has to be changed into Dextrose before your system can use it.

Karo, the Great American Syrup, contains a very large percentage of dextrose. This gives Karo its wonderful energy-producing value, and is what makes it so nourishing and wholesome for children—as well as for grown people.

Give the children all the Karo their system needs—on cakes or bread, or for making delicious, pure home-made candy.

**Your Protection**

Do not be deceived by cans containing syrup that might look like Karo. The name "Karo" is on every can of original Karo—look for it, and be assured of full weight cans and highest quality.

**BLU-KARO**

The standard table syrup. Also for cooking, baking, and candy making. Light brown color, delicious flavor—a heavy-bodied syrup.

**RED KARO**

The Meal Syrup for every use—for cooking,

**ANY PAIN YIELDS  
TO HYDROSAL**

Rheumatism, Neuralgia, Stiff Neck, Sore Throat, Sore Feet, Sore Eyes, Aching Back, Sprains, Bruises, or Burns Quickly Relieved.

If you have severe pains, whether from rheumatism, neuritis or other causes, Hydrosal—liquid—the Great Hospital Antiseptic—is marvelous in its rapidity to take away pain. Surgeons have used it in hospitals over the state for some years with great success as an anti-pain dressing after surgical operations. It doesn't irritate the skin and is non-poisonous.

Hydrosal is put up in liquid and ointment form in 25c and 50c sizes, and is sold and recommended by R. W. Smith, W. A. Emanuel, Arcade Drug Store, T. J. Evans, Mykrantz Drug Store and most other druggists or sent postpaid on receipt of price.

The healing power of Hydrosal ointment in all skin diseases, pimples, eruptions or more serious sores or inflammations is really remarkable. It heals cuts, wounds and stubborn sores from the bottom, leaving the skin clean and clear. It can be used day or night. It is a delicate flesh color and does not stain or discolor the skin or clothing. It stops the itching and burning of eczema and other serious skin diseases almost at once. Pimples have been known to banish over night.

We send a free sample postpaid of the ointment, or will send a sample bottle of the liquid for 10 cents in stamps to cover the cost of postage, and packing, just to show you what wonderful relief it will give in your own case. Address 5315 Hydrosal Laboratories, Cincinnati, Ohio.—Advt.

**LET THE PUBLIC  
KNOW IT'S VIRTUES**

Tells how Dreco roused a sluggish liver, stopped dizziness.

"I want to tell the public how Dreco roused my sluggish liver to action and overcome dizziness, foisted taste in my mouth and bad breath," said Mr. Thos. Bragg of 131 South Jackson St., Lima, Ohio.

Dreco acts on the liver slowly but surely, gradually working off the excess bile day by day thereby in a pleasant manner relieving dizzy spells, spots before the eyes, headaches, foul breath, nervousness and backache. All drug-gists sell Dreco, specially introduced by Evans' Cut Rate Drug Store.

# THOUSANDS OF RUGS

**Are You Watching The Famous  
Neponset Sidewalk Test?**

Have you observed how bright and fresh looking  
it has remained even after many hundreds have  
walked and scuffed over it? Sunshine or rain make  
no difference to Neponset. For the sun will not  
effect it, neither will the rain, for Neponset is 100  
percent waterproof. Could you think of any more  
severe test to which we might subject this wonder-  
ful Floor Covering.

**AND WE ARE SELLING IT THIS  
WEEK AT ONLY**

**59c A  
SQUARE  
YARD.**

NEPONSET FLOOR COVERING is built on a  
felt base saturated with asphalt. This saturating  
process thoroughly waterproofs it and makes it  
at the same time resilient and easy to walk on. This  
is a particularly desirable quality in a floor cov-  
ering for a sidewalk. However, it is necessary to  
remain standing for a considerable length of time.  
Come in and let the expert from the Neponset fac-  
tory explain more thoroughly the merits of this  
remarkable floor covering.

**Pays For Itself!!!**

Figure what a Hoover saves; then its cost sinks  
into comparative insignificance.

Carpet cleaning bills, the wages of the cleaning  
woman, laundry bills for draperies soiled by dust,  
swished about by brooms, redecorating bills due to the  
same cause, money paid for rugs to replace those worn  
out by overwork—all these represent expenses largely end-  
ed by the Hoover.

Could you value your time, strength and health at  
nothing—could you class a clean sanitary home  
year round as valueless—even then THE HOOVER  
would repay its costs many times over, by the longer  
life it gives your rugs.

**The HOOVER**

We will demonstrate the Hoover in your home.

We will gladly call and show you just what The  
HOOVER will do on your rugs. No obligation to buy.  
Call 23325 for demonstration or other information.

**Meyer-Lindorf Co.**
